I think taping makes sense.

They'll figure it out if they really want to make it happen.

They declined yesterday bc it's too early with the time difference. I'd like to suggest we tape something. Not sure if there is any way to do that from Durango.

If you can make it work with Shaun, I think he's the most appropriate to do something with them.

Hello Again,

We never heard back from the EPA's Regional office yesterday, but we are hearing a lot of criticism from the Environmental Secretaries of several states and the Navajo nation.

Would Admin. McCarthy in Washington DC or anyone else in Colorado be willing to come on The Weather Channel and respond to the criticism? Let me know. We would love to get your side on the air.

Thanks,
Alison

Hello Ladies,
We'd like to know if someone from the EPA is available to
discuss the Colorado River incident and what the EPA is
planning on doing in terms of cleanup.

We would arrange for a satellite interview from one of our
NBC Washington studios for 6:40 AM tomorrow with Al
Roker and Reynolds Wolf on "Wake Up With Al."

Please let me know if we can make that happen. Thank you

for your time.

Sincerely,
Alison
